PRESS RELEASE

Execulink Telecom's Link TV Service Launches in Sarnia

Woodstock, ON – October 23, 2018 – Execulink Telecom is pleased to present a new choice for TV services in Sarnia. Since 1998, the company has expanded their coverage area to provide an alternate choice for TV services in communities throughout Southern Ontario. The launch of Link TV will give customers an affordable and personalized TV experience, with the power to choose what they want to watch.

“Our goal is to provide an option for residents looking for a flexible and budget-friendly TV experience,” said Ian Stevens, President and CEO of Execulink Telecom. “Through an online portal, customers will have the ability to choose their channels and build a TV package suitable to their home!”

What makes Link TV so unique is its personalization and features. With a variety of channel options including Single Picks, Theme Packs, Pick Packs, and more, customers have the freedom to choose the channels they want with the option to add more as they please. Link TV allows flexibility in *how* you watch your TV. By downloading a virtual set-top box on a smartphone or tablet, you are able to take your TV with you anywhere on an Execulink Internet connection.

Link TV also has added benefits to make sure customers never miss their favourite shows. The Cloud DVR feature, allows you to record, pause, rewind and fast-forward your programming while the Restart TV feature allows you to restart a show with the click of a button. With Catch-Up TV, customers also have the ability to catch missed shows up to 24 hours after they originally air.

Execulink Telecom is excited to now offer Link TV to the community of Sarnia and is confident that it will give many customers the television experience they have been looking for.

For more information, please call 1-866-782-0874 or visit www.execulink.ca/residential/tv.

About Execulink Telecom

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through

innovation and forward-thinking, we cultivated our local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
