

Execulink Telecom Hosts Long Point Webinars

(Woodstock, ON) May 17, 2022 – Execulink Telecom is pleased to host a second Virtual Fibre Event for the Long Point area on Wednesday, May 25, 2022. Local residents are invited to join one of two online sessions from 12:00 p.m. to 1:00 p.m. and 6:00 p.m. to 7:00 p.m. to discuss the Fibre services and packages now available in the community. Installations are actively taking place for residents and businesses alike, and once the project is complete, customers in Long Point will have access to lightning-fast Internet, crystal-clear TV and reliable Home Phone solutions.

Ian Stevens, President and CEO of Execulink Telecom says, “We are proud to bring Fibre to Long Point and to continue to service more communities in Norfolk County. While for many this is home and for others the area is a destination for vacation and retirement, providing the technological advancement that Fibre offers is the superior telecom experience local residents, businesses and visitors alike deserve”, said Stevens.

Fibre is the delivery of a communications signal over optical Fibre. In comparison with other methods of delivery, Fibre’s underground infrastructure is unaffected by weather and allows for reliable TV and Phone services, with Internet speeds up to 1 Gpbs!

Construction in partnership with SWIFT began in January 2022 and installations are currently underway. Interested residents are encouraged to contact us to schedule an appointment.

Execulink Telecom has been servicing Norfolk County for over 25 years with Fibre first being installed in the county in Delhi in 2014. Execulink Telecom is proud to continue to bring Fibre to neighboring communities in the area, including Long Point and an office in Port Dover. Residents are encouraged to call 1-866-765-2282 to sign up. For more information, please visit fibre.execulink.ca.

About Execulink Telecom

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, we cultivated our local telephony offerings to provide a full scale suite of telecommunications services including data, Internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.

About SWIFT

Southwestern Integrated Fibre Technology (SWIFT) is a non-profit regional broadband project initiated by the Western Ontario Wardens’ Caucus to subsidize the construction of high-speed broadband networks across Southwestern Ontario, Caledon and the Niagara Region.

The project was approved for funding up to \$127.4 million under the New Building Canada Fund – Small Communities Fund (NBCF-SCF), a joint federal and provincial infrastructure funding program, and leverages additional funding from municipal partners and private sector investors to bring improve access to broadband services across the region.

For more information about SWIFT, please visit www.swiftruralbroadband.ca.
