

Execulink Telecom Awards Three Deserving Students with Post-Secondary Scholarships

(Woodstock, ON) September 20, 2022 – Local telecom provider Execulink Telecom has awarded three deserving students with \$500 scholarships to support them on their way to post-secondary education. Each student will be attending college or university in the fall. This year’s recipients are Amber Morton of Woodstock, Julia Lucas of Lambton Shores and Jordan Vandecasteele of London.

“At Execulink, we are committed to the personal development of youth in our local communities. We want to help students transition from high school to post-secondary learning with these scholarships,” shares Ian Stevens, President and CEO of Execulink Telecom. “We are extremely proud to help local students achieve their educational goals as they become the next generation of leaders in STEM.”

The recipients were selected based on their community involvement and strong academic standing, with particular focus on mathematics and sciences.

“We hope that the 2022 Execulink Scholarships help ease some of the concerns these students are facing when starting their first year at their chosen post-secondary institutions,” says Andrea Atkinson, Vice President Customer Experience at Execulink Telecom. “Pursuing higher education is an adventure and we commend these young women for continuing to chase their dreams.”

Each year, the Execulink Scholarship program provides three graduating high school students with one-time \$500 scholarships. Applications for 2023 will open next summer. Visit www.Execulink.ca for more information.

About Execulink Telecom In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, we cultivated our local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
