

## Execulink Supports CAGIS on Day Ten of Gifts of Christmas

**(Woodstock, ON) December 21, 2024** – Execulink Telecom is thrilled to announce the tenth day of its 7th annual Gifts of Christmas program. This initiative recognizes and supports exceptional organizations making a positive impact in their communities by donating \$500 each day for 12 days.

On this tenth day of giving, Execulink is proud to support CAGIS (Canadian Association for Girls in Science), Canada’s largest and longest-running STEM club for girls and gender-diverse youth aged 7-17. Founded in 1992, this award-winning organization ignites interest in science, technology, trades, engineering, and math through engaging and educational activities.

With virtual programming and local chapters, such as CAGIS London, the organization connects youth with real-world STEM experiences by visiting labs, workshops, and field sites, and meeting inspiring mentors in the field. Through fun, hands-on activities, CAGIS empowers its members to explore and pursue their passions in STEM.

“CAGIS is fostering the next generation of innovators and problem-solvers,” says Ian Stevens, CEO of Execulink Telecom. “We’re proud to support an organization that opens doors to STEM opportunities for girls and gender-diverse youth, inspiring creativity, curiosity, and confidence.”

Execulink’s Gifts of Christmas program continues to celebrate organizations like CAGIS that are making a significant impact in shaping brighter futures.

### **About Execulink Telecom**

In operation since 1904, Execulink Telecom has evolved from a small independent local telephone company into one of the leading telecommunications providers in Ontario. Through innovation and forward-thinking, the telecom provider has cultivated what began as local telephony offerings to provide a full-scale suite of telecommunications services including data, internet, television, mobility, and advanced voice features. These services are now available to all levels of industry, encompassing 50,000 business, enterprise, government, and residential customers.
